

NORIT® CNR115

Extruded Activated Carbon

WHY CABOT

Cabot Norit Activated Carbon is a premier activated carbon manufacturer respected for experienced people, diverse products and strong customer relationships. Cabot's history of innovation, product performance, technical expertise and customer focus ensure that you receive the right products and solutions for your specific purification needs.

NORIT CNR115 extruded activated carbon is a pelletised chemically activated carbon, produced from a renewable raw material source via a patented version of the phosphoric acid process. This grade has been specifically designed for gasoline vapour capture in gasoline fuelled vehicles.

NORIT CNR115 extruded activated carbon is a high activity, medium density grade, offering superior Butane and Gasoline Working Capacities (BWC and GWC). It is produced as a dust free pellet of diameter 2 mm to ensure reduced pressure drop and uniform flow required by current and future canister design and is of excellent durability from both the mechanical abrasion resistance and the heel build up stand point.

SPECIFICATIONS

Butane working capacity	min. 11.5	g/100 ml
pH	min. 5.0	-
	max. 8.0	-
Moisture (as packed)	max. 6.0	mass-%

GENERAL CHARACTERISTICS

Butane working capacity	12.0	g/100 ml
Apparent density	350	kg/m³
Ball-pan hardness	90	-
Particle size > 2 mm	95	mass-%

NORIT® CNR115

Extruded Activated Carbon

NOTES

1. For important product safety, health, environmental and regulatory information, please refer to the Safety Data Sheet (SDS) which is available upon request.
2. General characteristics reflect representative values of product parameters and are not to be used as purchase specifications.
3. All analyses based on standard test methods and specifications are guaranteed values based on lot-to-lot quality control, as covered by Cabot Norit Activated Carbon's ISO 9001 certification.
4. Specifications mentioned are valid at the time of delivery of the activated carbon.

PACKAGING

This product is available in:

- Flexible Intermediate Bulk Containers (FIBC), 350 kg net weight per pallet.

Product availabilities depend on the type of packaging.
